

Artificial Intelligence in Scottish Radiology: Scoping Webinar

Scottish
Radiology
Transformation
Programme

The session will start at 3pm
07 December 2020

This session will
be recorded

Housekeeping

1. Welcome to the SRTP Artificial Intelligence Project Scoping Webinar
2. This session is being recorded
3. Please ensure that your microphone is on **mute**
4. Please use the **chat** function to add any comments or questions for our panel
(Please note the chat will be visible to all attendees)
5. Please feel free to switch your **video off** unless you are presenting

This session is
being recorded

Agenda

Item	Speaker
Welcome, Introduction and Background	Dr Hamish McRitchie, Medical Director, SRTP
AI in NHS GGC	Dr Mark Hall, Consultant Radiologist
iCAIRD Update PICTURES	James Blackwood, iCAIRD NHS Programme Manager Susan Krueger, Project Manager, Health Informatics Centre
National AI Project Roles and Scope	Jill Patte, National Programme Director, SRTP
Discussion and Q&A	Facilitated by Dr Hamish McRitchie, Medical Director, SRTP

AI in Radiology

Introduction and Background

The **Scottish Radiology Transformation Programme** is a national programme delivering ambitious projects including IT connectivity and workforce solutions, Clinical Decision Support, and, the focus of this session, Artificial Intelligence.

Purpose of the Day

- Share current experiences with clinical AI
- SRTP AI project scope
- Feedback and discussion on next steps

Dr Hamish McRitchie
Medical Director, Scottish Radiology Transformation Programme (SRTP)

**Clinical
Artificial
Intelligence**
NHS Greater
Glasgow & Clyde

Dr Mark Hall
Consultant Radiologist

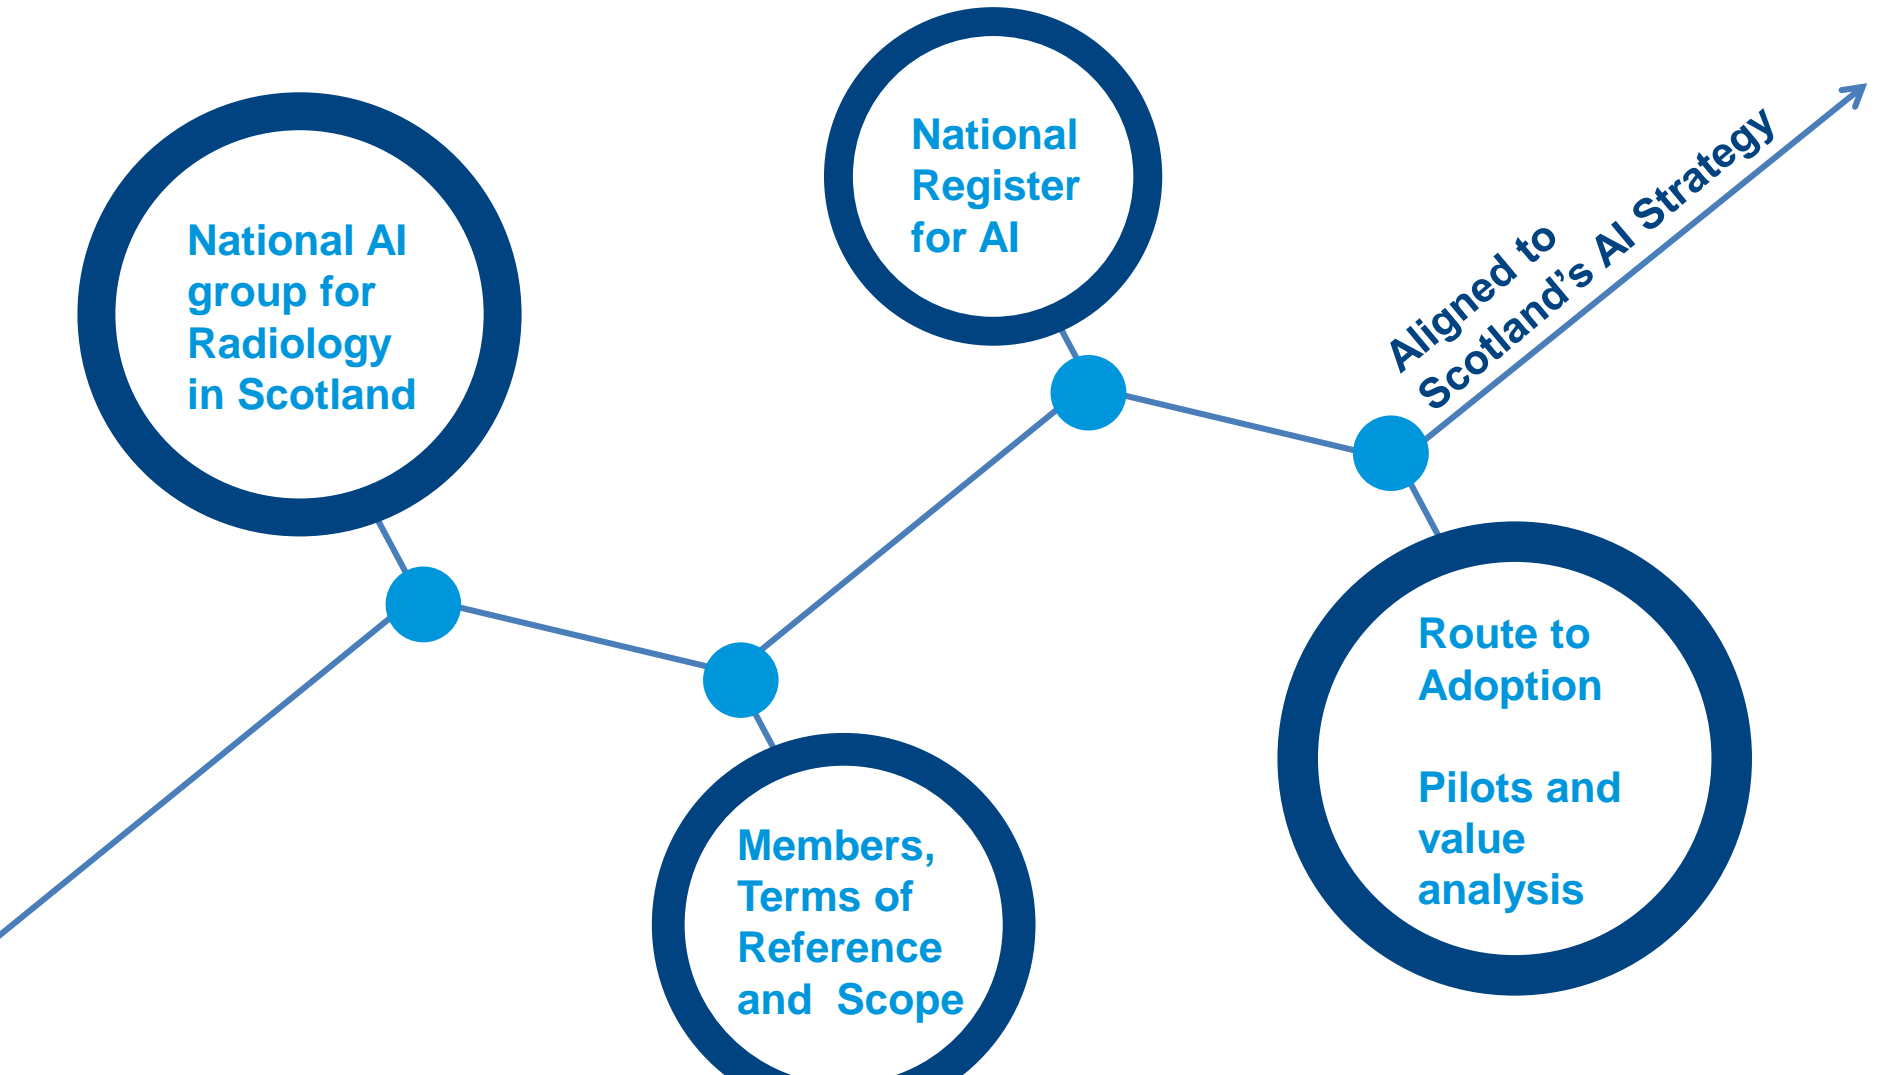

National AI Project Roles and Scope

Areas of focus

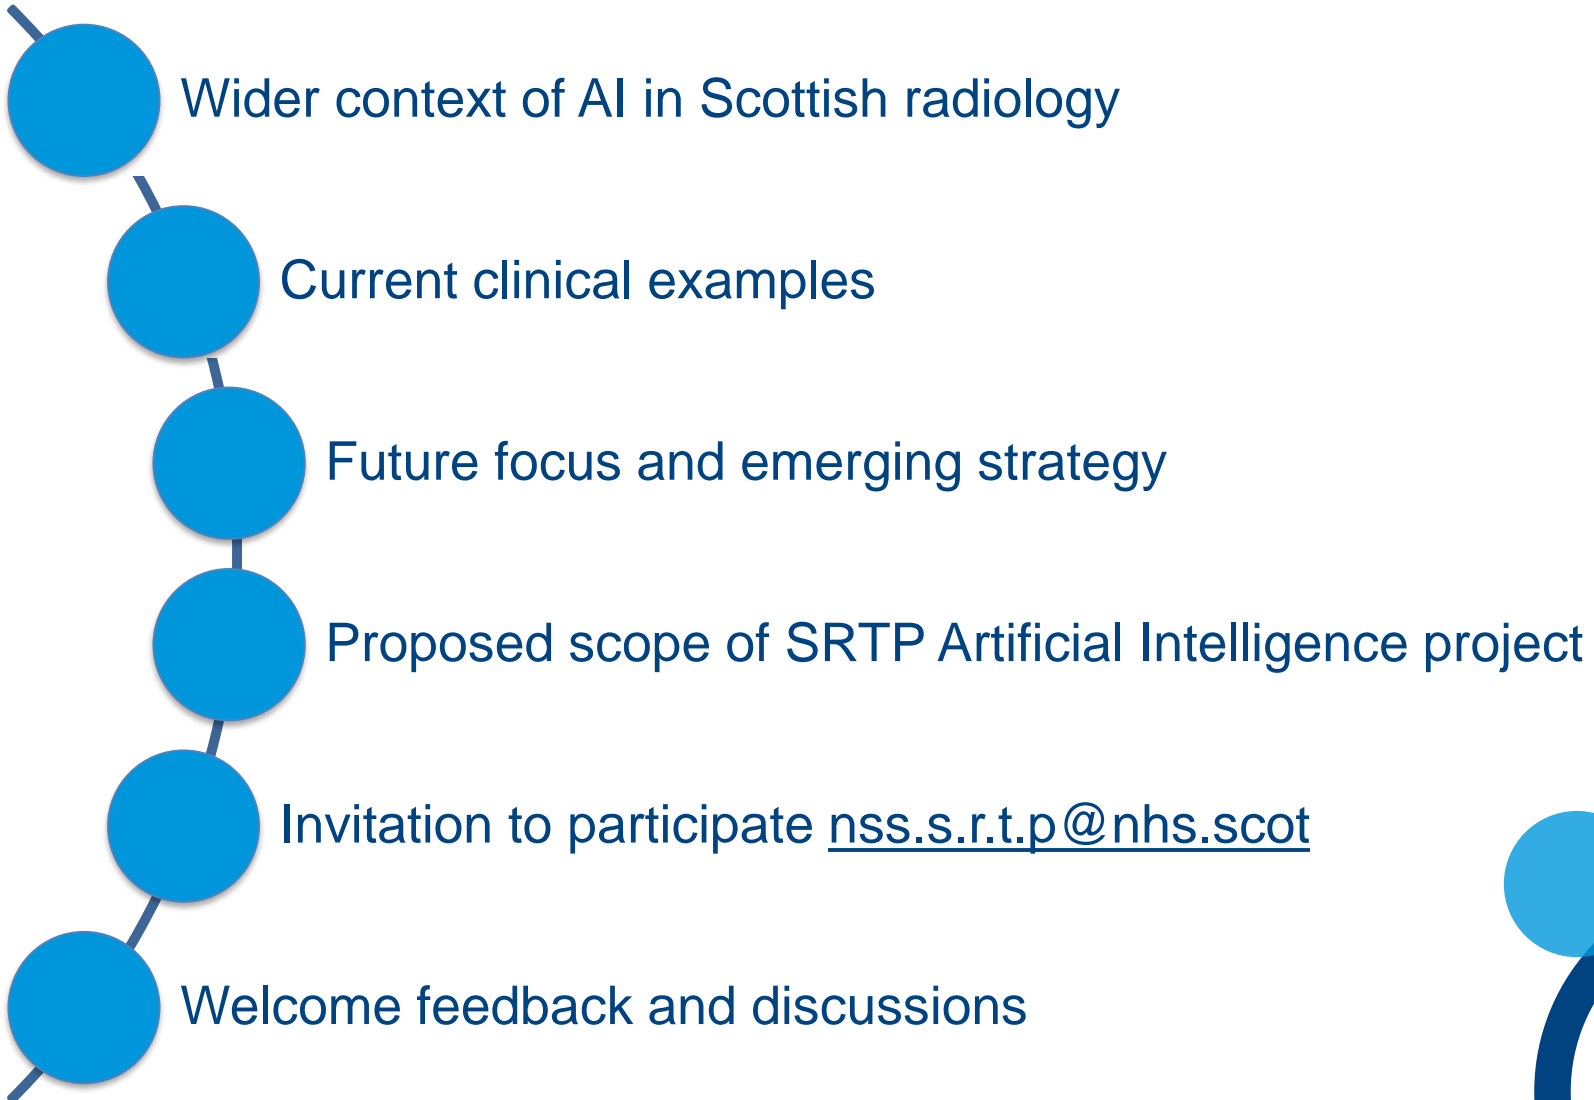

- Once for Scotland approach - *National group*
- Collaboration and communication, shared learning
- Value analysis and prioritisation
- Pilots and evaluation
- Road to adoption, aligning with strategy

National AI Project

Summary

- 
- Wider context of AI in Scottish radiology
 - Current clinical examples
 - Future focus and emerging strategy
 - Proposed scope of SRTP Artificial Intelligence project
 - Invitation to participate nss.s.r.t.p@nhs.scot
 - Welcome feedback and discussions

Discussion and Q&A

National
AI Project
Roles and
Scope

Dr Hamish McRitchie
Medical Director, SRTP
